## Introduction

The Economic Framework of any nation is built upon foundational pillars such as productive capacity, sustainable growth, innovation, governance and human capital development. Strengthening of these pillars requires a strategic approach that maximizes value while ensuring efficiency, resilience and inclusivity.

The Value Methodology (VM), also known as Value Engineering/ Value Analysis/ Value Management or VAVE, is a systematic approach used to improve the Value of Products, Services and Processes by analyzing functions and reducing cost without compromising its Quality, Efficiency and Usefulness. This methodology can be effectively applied to Economic Development Strategies around the globe.

In view of the above background, SAVE International, USA has planned its Annual 2025 SAVE Value Summit in India, which usually happens in USA every year, and Indian Value Engineering Society, India is proud to host this Value Summit in New Delhi on 15th & 16th September 2025 at The Lalit Hotel.

Theme of the Summit is:

**“Value Methodology for Strengthening the Pillars of Economy”.**

### **Indian Value Engineering Society**

**(INVEST)** Founded in 1977, INVEST is for advancing the knowledge and technique of Value Methodology (VM) for the benefit of all sectors through its versatile applications for improving quality, productivity, profitability, competitiveness, and sustainability.

INVEST undertakes its initiatives through PACE (Promote, Advocate, Certify, Educate) activities involving a wide range of stakeholders. With a strong focus on fostering a 'value culture,'

INVEST serves as a valuable partner to industry and government alike.

INVEST is affiliated with SAVE International, USA and administer training and certification programs in India on its behalf.

INVEST offers its Certification Programs on VM for students, trainers, and professionals. These are practical, project-based training with real-life project/s as a critical, mandatory part for certification.
